CORN BEING GROWN
FARTHER NORTHIncreasing Area of Native
American Grain Being Rais-
ed in Northern States Fol-
lowing March of Wheat
Area in Same Direction.

Washington, June 21.—According to figures obtained during the census it appears that the area of the United States which produces corn is steadily moving northward.

South Dakota's wheat area was second largest in 1909 than in 1900, according to the census report for that state, while public index in the same time there were increases of 100 per cent in corn, 200 per cent in oats, 150 per cent in barley and 140 per cent in hay and forage. These changes reflect the extension necessitated in the production of crops for animal feed which a few years ago were raised to be not safe enough to raise in areas so far north. The census figures do not yet make available from the agricultural department estimates for the cereal crop except on account. The census report of wheat area is 271,000 acres below the semi-official departmental estimate.

The total value of the cereal crops in South Dakota in 1909 was \$9 million dollars. The wheat area was 1,875,255 acres, 1,875,255 acres, 1,490,073 acres; barley, 1,697,522 acres; hay, 502,286 acres; and forage, 8,429,527 acres.

R. E. and Joseph Brady Meet in Arizo-
na City for First Time in
Score of Years.

Douglas, Ariz., June 21.—After fail-

ing to meet or see each other for 19

years, R. E. Brady, who is a switch

man at the local El Paso Southwestern

yards and his brother, Joseph Brady,

former soldier, have ended their

long separation. Joseph Brady is a

trooper in troop I of the 12th cavalry.

Brady left his former home in New York nearly 20 years ago to seek

his fortune. In the meantime he had

lost all trace of his father, mother and

brothers. He recently happened to

hear that Joe Brady was with troop

I at San Bernardino ranch. An in-

vestigation followed which revealed

the fact that the soldier was his

"half" brother aged six years, when

he left home. The trooper obtained

leave and is now the guest of his

brother in Douglas.

The Douglas water commission has

been reorganized. H. A. Packard is

now chairman of the board. The new

board will meet in a few days to take

up matters of importance in connec-

tion with rates pending for some

time.

James Sublesky, aged 63 years, a

native of Douglas, died here at a

local rooming house of minor com-

plaint complicated with Bright's disease. He will be interred Sunday.

Sutherland had lived here for nine

years. He was a native of Colorado

and unmarried.

June 15 was the 31st anniversary

of the arrival in Arizona of H. C.

Stullman, secretary of the Douglas

Business Men's Protective associa-

tion. The occasion was celebrated

by a party to which a number of his

friends were invited.

It is well, then, to exercise to take any

medicine internally for muscular or

chronic rheumatism. All that is needed

is a free application of Chamber-

lain's Liniment. For sale by All

Dealers.
